a note from carrie

After a wildly successful inaugural Summit in 2022, we realized we wanted to create the same lasting impact, but in a totally different way.

That's why we created The Retreat, by WeWo Summit.

All attendees will benefit from a full-day of programming designed to inspire

What if there was a different way to educate, inspire, and uplift a group of intelligent people looking for direction, inspiration, and connection?

What would it look like?

Do you find yourself saying,

“Now that I’m EMPOWERED, what’s next for me? How does that benefit my health, my wealth, and my growth, both personally and professionally?”

our core values

A BRA MEMBER SHARES IN THE UNDERSTANDING THAT:

We embody a collaborative mindset and encourage our Members to hire each other first.

We believe entrepreneurship is part of your multi-faceted, integrated human experience. It IS personal. It's business.

We believe that vulnerability is a superpower. You're safe with us.

We invest in one another — and women and non-binary people everywhere — by sharing our resources (knowledge, experience, connections, time, energy, and money).

We help our Members get more business thereby changing the landscape of the current global economy and our place in it.

We are purposeful in building businesses that are reflections of a diverse inclusive community and not a homogenized group.

We have a shared obligation to build businesses that think globally and act ethically in their business practices and production. We give back to our greater communities whenever possible, individually and as a collective.

... and we **enjoy** the journey!
